soluzion@szngroup.com.ph

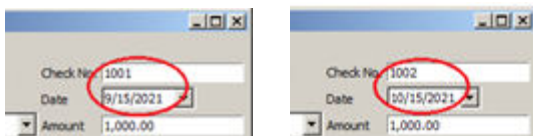

Writing bank checks manually can be tedious and error-prone. Be able to input and then print the details of a bank check easily and accurately.

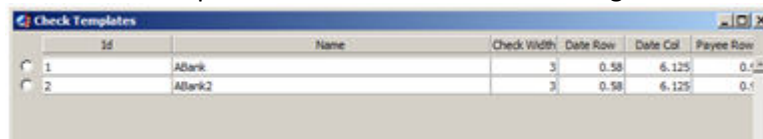

Sample print-out

Notable Features:

- Automatic generation of Amount in Words
- Printing of Cross Check indicator (upper left corner)
- Post-Dated Check (PDC) - printing a series of checks with auto-increment of check number and date

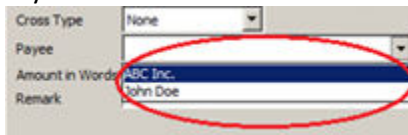

- Bank Check Template maintenance - allows tailoring of check format per bank

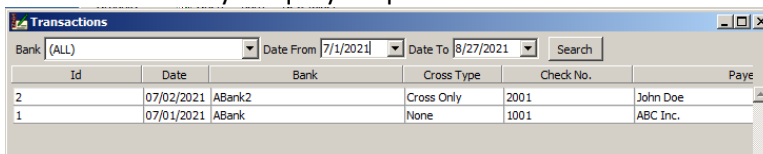

Id	Name	Check Width	Date Row	Date Col	Payee Row
1	ABank	3	0.58	6.125	0.1
2	ABank2	3	0.58	6.125	0.1

- Payee maintenance - enables setup of payees that can then be selected from a dropdown list

- Transaction History - inquiry for printed checks

Bank	Id	Date	Bank	Cross Type	Check No.	Payee
ABank2	2	07/02/2021	ABank2	Cross Only	2001	John Doe
ABank	1	07/01/2021	ABank	None	1001	ABC Inc.

- Check Date format setting - user-configurable print format for check date such as... MM/DD/YYYY, DD/MM/YYYY, MM-DD-YYYY, etc.

Platform: Windows XP & later

Works best with top-loading inkjet printers...

Align blank check based on paper alignment guide...
